

Harc Tub

Designed by Roger Webb Associates

Harc has been created to facilitate the basic need to listen and to provide a comfortable place to reduce the surrounding noise. The name Harc echoes the arc shape with its sweeping curves that wrap around to create a warm and cosy enclosure.

What we know...

Harc Tub chairs are ideal for areas in which seating may be placed back to back, such as atriums or waiting areas. Both Harc Tub chairs and Harc high back sofas provide a greater degree of privacy than a typical low-back seat. The Harc Booth provides the next level of visual and acoustic privacy within the Harc range. Because of the relatively enclosed configuration, there are fewer direct paths in which sound can travel to nearby listeners.

To get the most out of the performance of Harc products, they should be placed in an area where ambient noise levels are suitably high and the ceiling above is highly absorbent.

The Harc range also includes complementary tables, low back
