

Four[®]Real

Designed by Four Design

Four[®]Real is a folding table designed to be used on its own or with the partition; the rounded shape perfectly complements the Four[®]Cast2 and Four[®]Sure seating range.

The table has integrated castors on two legs that allows one person to easily move the table, even when the FourReal partition is attached. Imagine furniture that creates a private space that can be stacked, folded and moved around the room – by one person.

Four[®]Cast2 veneer

Designed by Strand & Hvass

Four[®]Cast2 Counter, High and Line are casual, lightweight and stackable chairs. The unique design offers you maximum comfort and ergonomic support, thanks to the flexible shell and v shaped back.

The chairs are provided with Teflon glides to avoid noise when the chairs move across the floor. Each chair type can be upgraded with seat upholstery, and you can choose to complement the oak with Chrome (III) / Matt lacquered white, black, or stonegrey frames.
