

Four[®]Real

Designed by Four Design

Four[®]Real is a folding table designed to be used on its own or with the partition; the rounded shape perfectly complements the Four[®]Cast2 and Four[®]Sure seating range.

The table has integrated castors on two legs that allows one person to easily move the table, even when the FourReal partition is attached. Imagine furniture that creates a private space that can be stacked, folded and moved around the room – by one person.
